Major Program Timeline

Take the courses from your major plan and map them out on the major program timeline below.

To complete the timeline:

ESSENTIAL: Use the [Journalism course planning](#) document to complete the plan.

1. Start with the semester you took your first Jour course; include Jour 1001 and any Jour courses already completed or in progress.
2. List only the 12 Jour courses required for the major.
3. There are specific prerequisites to follow for most professional/skills courses, and some courses are only offered once a year. Reminder - check the [Journalism course planning](#) document!!!
4. If you want to include summer courses, list only Jour 3004 and context courses (no other courses are offered in the summer).
5. Check the course planning document for approved learning abroad courses. If you are going on a program that does not have approved courses, leave that semester blank and indicate "abroad."
